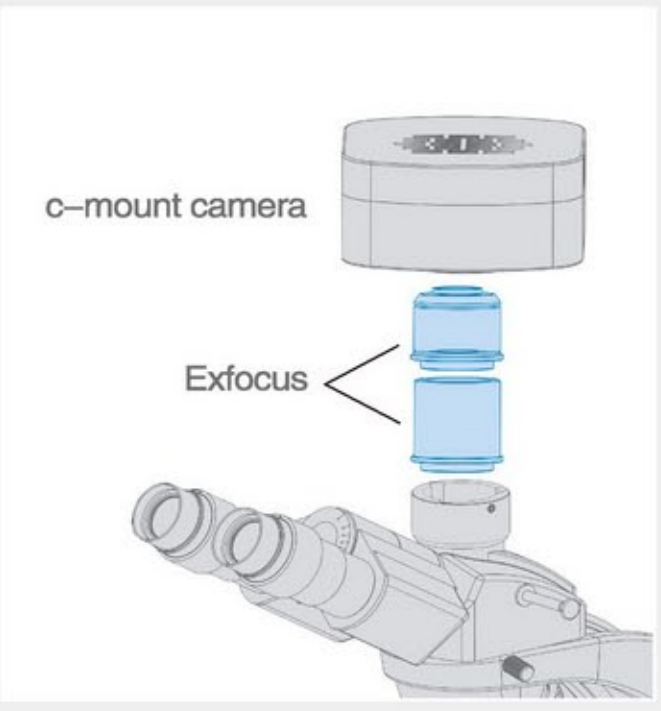
Exfocus 0.5X & Exfocus 0.66X

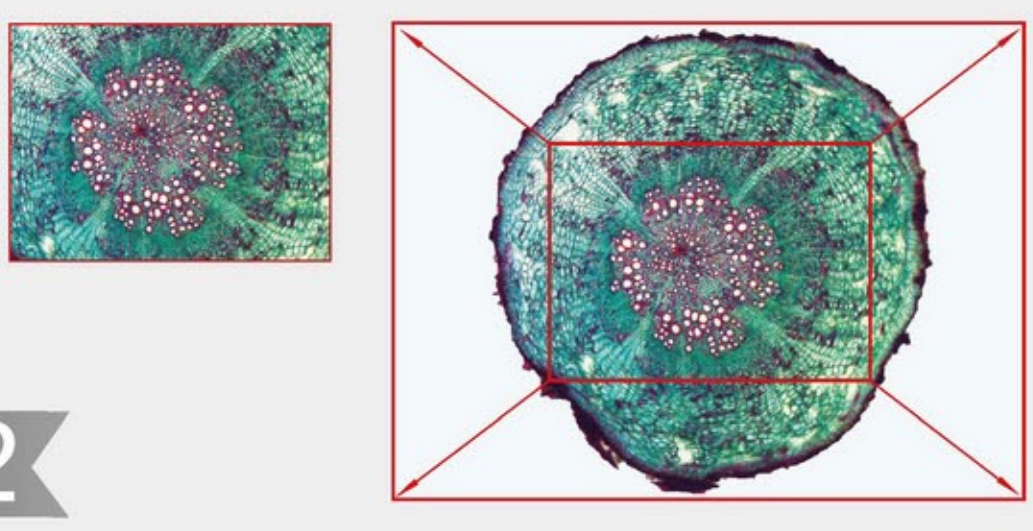
Main Features

1

Excellent intermediate optics for connecting microscopes to c-mount cameras

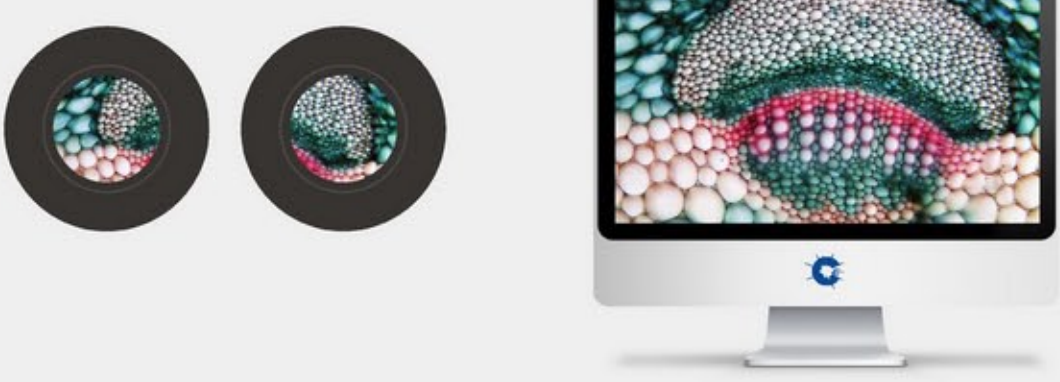


2



Enlarge Field of view

3 Parfocal ocluar view and digital imaging

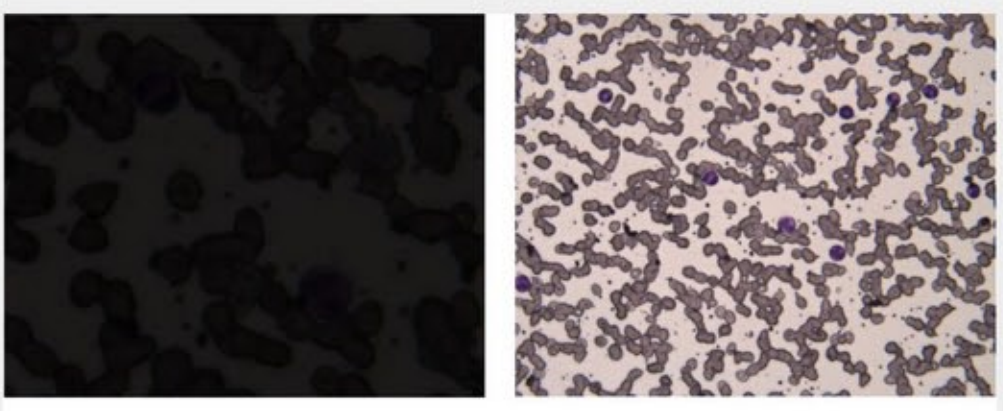


4 Easy to switch to different microscopes

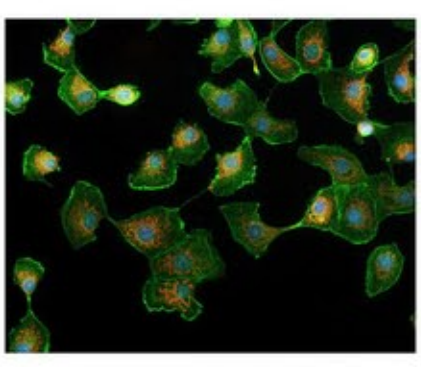
OLYMPUS Ø42 | ZEISS Ø30 | LEICA Ø35 | NIKON Ø38

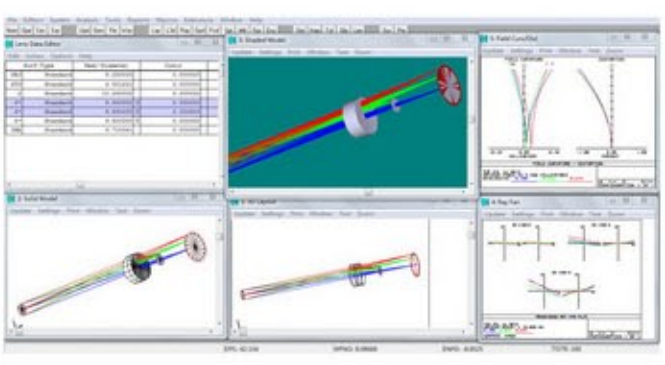
OLYMPUS ZEISS Leica MICROSYSTEMS Nikon

5 Enhance sensitivity



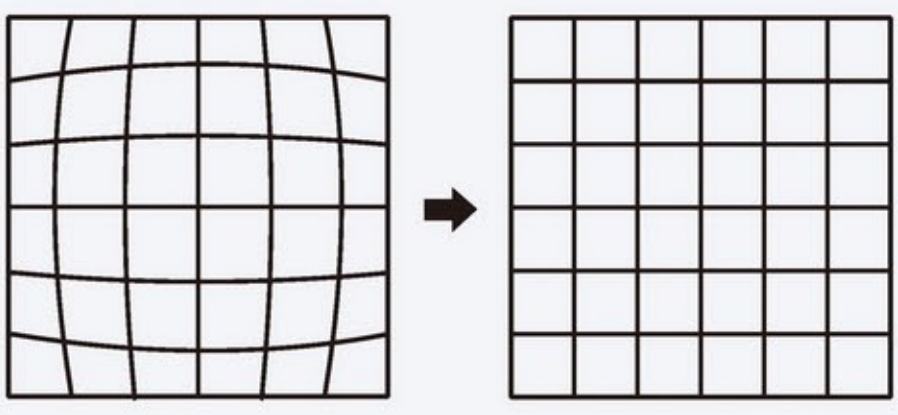
Without Exfocus | With Exfocus-0.5



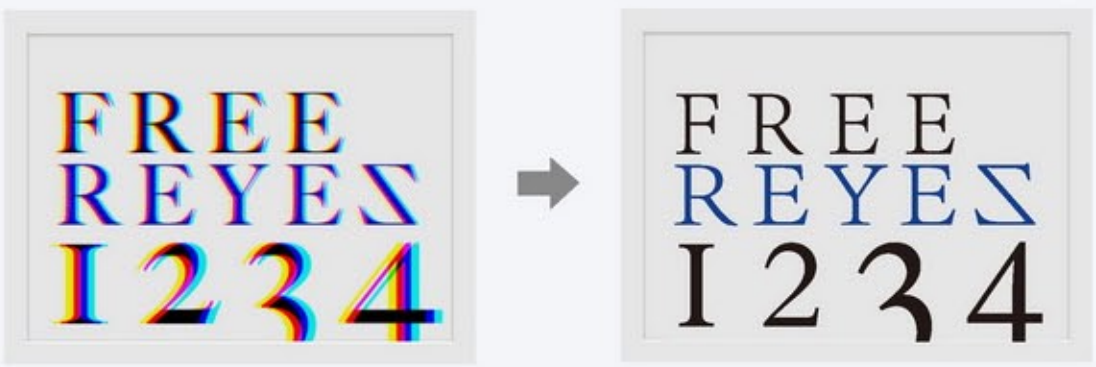


Quality Design

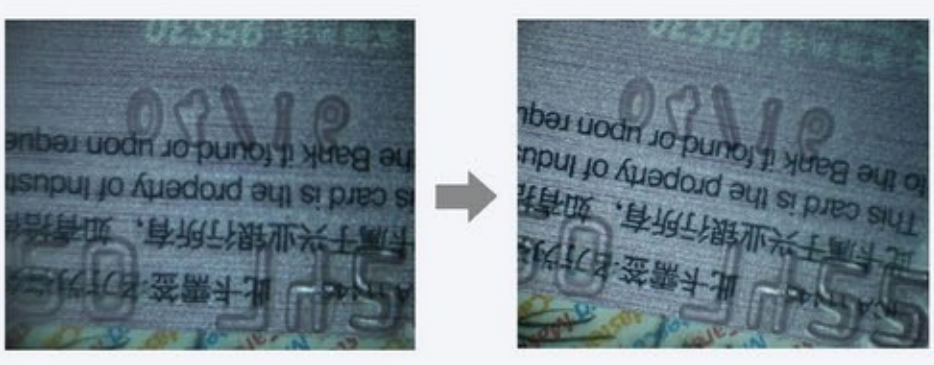
1 Excellent aberration correction system improves clarity and definition of the field of view, gives premium optical imaging quality.

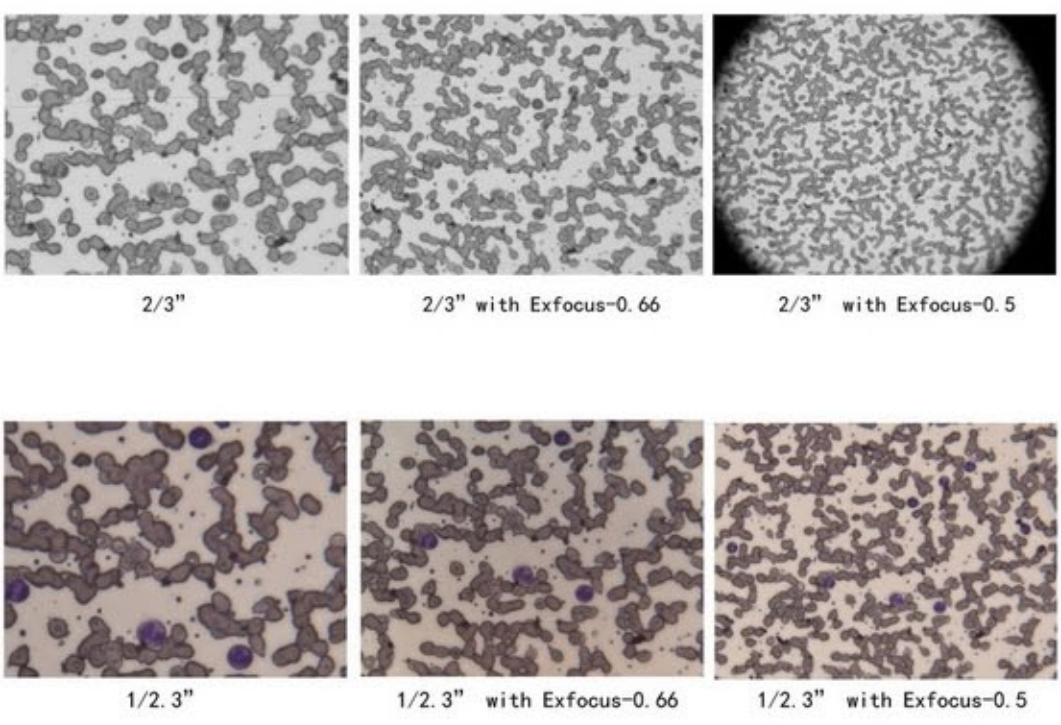


2 Independent chromatic aberration correction system guarantees accurate color reproduction.



3 Lens' broadband multilayer coatings markedly improve the transmission efficiency and enhance contrast.





Characters

Full reducing lens		
	Description	Part Number
Exfocus 0.5X-L	0.5X Reducing Lens with adapter head for Leica	TS005-04-01
Exfocus 0.5X-N	0.5X Reducing Lens with adapter head for Nikon	TS005-04-02
Exfocus 0.5X-Z	0.5X Reducing Lens with adapter head for Zeiss	TS005-04-03
Exfocus 0.5X-O	0.5X Reducing Lens with adapter head for Olympus	TS005-04-04
Exfocus 0.66X-L	0.66X Reducing Lens with adapter head for Leica	TS005-06-01
Exfocus 0.66X-N	0.66X Reducing Lens with adapter head for Nikon	TS005-06-02
Exfocus 0.66X-Z	0.66X Reducing Lens with adapter head for Zeiss	TS005-06-03
Exfocus 0.66X-O	0.66X Reducing Lens with adapter head for Olympus	TS005-06-04

Adapter head		
Adapter head for Leica	for Leica microscope Tubes with Ø35mm internal diameter	TS005-05-01
Adapter head for Nikon	for Nikon microscope Tubes with Ø38mm internal diameter	TS005-05-02
Adapter head for Zeiss	for Zeiss microscope Tubes with Ø30mm internal diameter	TS005-05-03
Adapter head for Olympus	for Olympus microscope Tubes with Ø42mm internal diameter	TS005-05-04
