

single channel micropipettes

fully autoclavable

- ▶ High quality precision micro pipettes for cell and culture science and all laboratories of life sciences.
- ▶ Completely autoclavable at 121°C and 1.1 bar for 30 minutes for sensitive laboratory applications.
- ▶ Individually calibrated according to **ISO 8655 standards** and the quality certificate for accuracy and precision is provided with each pipette.
- ▶ Continuous digital system for volume setting. The volume display is clearly visible at all times during operation.
- ▶ It is constructed of high quality plastic and combined with stainless steel piston, thus the item is robust yet lightweight.
- ▶ The ergonomical, rounded hand grip and finger handle ensure comfortability and stability as well as a correct pipetting angle.
- ▶ The unique design allows quick and easy volume setting with only one hand.
- ▶ Built-in streamlined tip ejector enables easy tip ejection and allows access to narrow neck volumetric flasks and to the bottom of the tubes.
